... #2 (Checkered Vessels)

18:24:45 From Tim Hatch Bastrop, TX:  
@Bob Grinstead - Mansfield, Texas So that piece I turned I used one of the wife's Gelato containers... filled the bottom with some shells then put a large Pill container in the center then filled with shells and resin... the pill container took up the space... but I should have kept the cap off the container when putting it into the Vacuum chamber... I ended up having to add a bitt more resin...LOL

18:25:49 From Tim Hatch Bastrop, TX:  
Replying to "I don't think I disl..."

But it did take up space so I didn't use a whole lot of excess resin
