

Turning Point

The Official Newsletter of WorldWideWoodturners.Org

What are you gonna' do in '22 ?

February 2022

2022 is looking to become a banner year for WorldWideWoodturners.org. Participation at our meetings is growing each week. But the real news is the quality of the work and expertise of the members is growing very nicely.

We are enjoying demonstrations from members all around the globe, many of whom are in the Pay-per-view market. But those fantastic instructors perform their demonstrations at no fee. I guess that's why we really are the **Greatest Free Show on the Planet**. Because of you, we are all learning more and more about turning each meeting.

What can you do to help this growth? Just participate in our meetings, show your work in the gallery, send photos to us for our website, newsletter and promotion videos. And if you are really anxious about demonstrations and maybe a little hesitant, we can help you. Our member are always available to help with cameras, video set-up and transmission. We all want to be involved and helpful.

CONTACT LIST: WWW does not have a membership list. How do you go about contacting another member? David, our webmaster, has formed a private contact list for members. Collecting data from our chat, and receiving info from our website, he has assembled a plain format list of that information.

This is strictly voluntary. Send the info you wish to share to David, he will add it to the list. The list is protected from the BOTS, as much as we can. Complete directions are on our website.

Cap'n Eddie Castelin, Member.

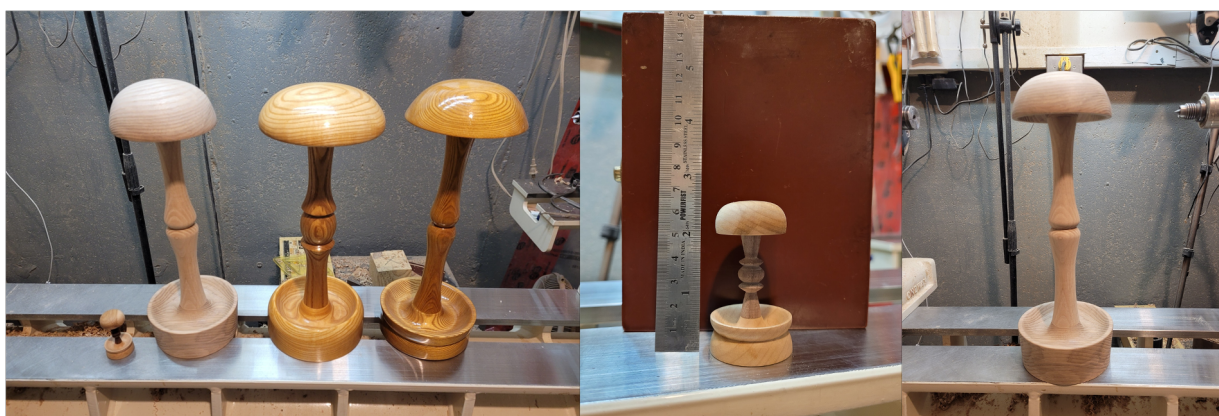

Member's Gallery

Photos shown in this newsletter were provided by some of World's Greatest Woodturners.

If you would like to be included, send your photographs to:

worldwidewoodturners@gmail.com

We will accept multiple views of the same project.
