

Turning Point

The official Newsletter of WorldWideWoodTurners.org

Get Ready!

WorldWideWoodturners.org is one of the fastest growing woodturning clubs in the world. We are attracting members from around the world. We host demonstrations at least 4 times a month. We offer a fantastic Gallery at each and every meeting.

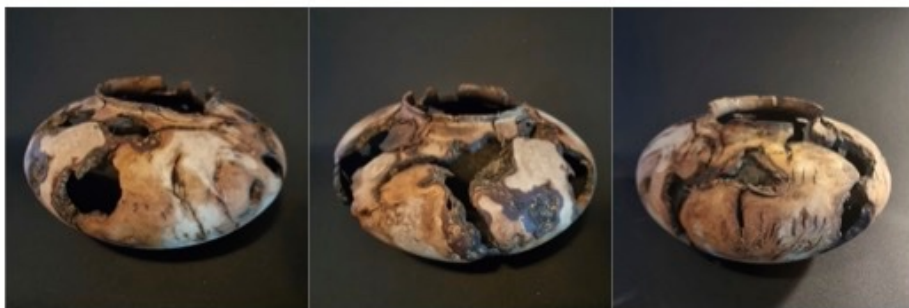

And on top of that, this newsletter. This is produced with the help of our membership. Send in photos of your work and they will be published right here every month. When you see. Multiple photos of the same week, it's because one of our members took the time to provide those views.

Join the club, be part of our future. Worldwidewoodturners.org, is your club.
